

#1 Cost-Effective Backup For MSPs and Businesses

BDRSuite | BDRCloud

By Vembu Technologies

About Vembu Technologies

Vembu Technologies is a leading player in the Backup and Disaster Recovery market, catering to Small/Medium Businesses, Enterprise Businesses, and Service Providers. Our mission is to deliver robust, reliable, and affordable data protection solutions tailored to meet the diverse needs of IT environments.

Our Products

BDRSuite and BDRCloud are comprehensive, cost-effective backup and disaster recovery solutions designed to backup and protect diverse workloads including Virtual, Physical, SaaS and Cloud. Our solutions offer flexibility to store backups anywhere and manage the entire backup infrastructure centrally, either through the BDRCloud-hosted or BDRSuite's Self-hosted centralized management console.

With BDRSuite & BDRCloud, businesses can rest assured that their data is secure and easily recoverable in the event of data loss or ransomware attacks. Our solutions ensure business continuity through reliable data protection and instant recovery capabilities – all at an affordable price.

History

Vembu has ventured into the Backup & Disaster Recovery market in 2002. Since then, the only focus is on building a comprehensive data protection solution.

Over the last 15+ years, Vembu has set footprints around the globe and is trusted by several companies in different sectors like private, public and government to protect their critical data.

We constantly work towards enhancing our solution to ensure data protection and business continuity for the IT infrastructure of every business.

Our Philosophy

- We are not gifted. We work hard.
- We want a better tomorrow. We try even harder.
- Nothing comes perfect the first time. We persist.
- Nothing special about us. We want our work to be special.
- It's not about winning or losing. It's about sincerity of purpose.

Backup from Any Location

BDRSuite stands out with its versatility, supporting backup for a diverse array of IT environments:

- **Virtual Machines:** VMware, Hyper-V, KVM, Proxmox VE, oVirt
- **Servers & Endpoints:** Windows, Linux, Mac, NAS/File Shares
- **SaaS Applications:** Microsoft 365, Google Workspace
- **Cloud VMs:** AWS EC2 Instances, Azure VMs
- **Databases:** SQL Server, PostgreSQL, MySQL
- **Applications:** Microsoft Exchange Server, SharePoint Server

Centralized Management

Managing the entire backup infrastructure is simplified, ensuring that MSPs and IT administrators can efficiently monitor, manage, and control all backup activities through a single pane of glass.

- BDRCloud-hosted Centralized Management Console
- BDRSuite's Self-hosted Centralized management console

Store Backup Anywhere

MSPs & businesses can choose the storage that best fits their needs and budget.

- **BDRCloud:** Our secure & cost-effective cloud storage
- **On-Premise/Remote Storage:** DAS, NAS, SAN, Deduplication Appliances
- **Your Own Public Cloud:** Amazon S3, Azure Blob, Google, Wasabi, Backblaze, MinIO, Other S3 Compatible storage

Ransomware Protection and Recovery

BDRSuite & BDRCloud ensures that businesses can quickly recover from data loss or ransomware attacks, minimizing downtime and maintaining business continuity.

With fast recovery options and robust security measures, our solutions ensure that critical data is protected and recoverable.

Trusted By Global Brands

From SMBs to Fortune 500 companies, BDRSuite helps organizations to protect their critical data and ensure business continuity.
