

#1 Cost-Effective **Hyper-V Backup** for Businesses and MSPs

Backup from Any Location

VMs, Servers, Endpoints, Cloud VMs,
SaaS, DBs/Applications, NAS/File Share

Store Backup Anywhere

On-Premise/Remote Storage,
Your Own Public Cloud, BDRCloud

Centralized Management

BDRCloud-Hosted (or) BDRSuite's
Self Hosted Management Console

BDRSuite for Hyper-V Backup & Replication

BDRSuite offers a comprehensive and cost-effective solution for backup, replication, and disaster recovery for Microsoft Hyper-V environments. By simplifying and automating data protection, BDRSuite helps businesses and MSPs tackle challenges such as data loss, downtime, data integrity, and recovery complexities.

Supported Platforms

Platform: Microsoft Windows Server 2012 & above

Hypervisor: Microsoft Windows Hyper-V Server 2012 & above

Key Features

Agentless VM Backup

Backup Hyper-V VMs without installing any agent inside each VM. Supports Hyper-V Cluster, CSV, S2D, SMB share.

Flexible Recovery

Restore the backed up Hyper-V VM the way you need it, such as an entire VM, specific disks, individual files/folders, or application-items.

Centralized Management Console

BDRSuite offers real-time visibility and control over your backup environment through a self-hosted centralized management console deployed in your preferred environment.

Direct-to-Cloud Backups

BDRCloud

Utilize our reliable & secure BDRCloud Storage

Bring Your Own Cloud

Use your existing Private/Public Cloud Storage

Amazon S3 | Azure Blob | Google Cloud | Wasabi
Backblaze | MinIO | Other S3 Compatible Storage

Agentless VM Replication

Replicate Hyper-V VMs to a different network or site and enable VM failover to ensure seamless business continuity.

Store Backup Anywhere

Store backup data in NAS, DAS, SAN, Amazon S3, Azure Blob, Google, Wasabi, Backblaze B2, MinIO, etc.

Ransomware Protection & Recovery

Protect your backups from ransomware threats with immutable backups and quickly restore data to mitigate the impact of ransomware attacks.

Incremental Backup

Hyper-V Resilient Change Tracking (RCT) and BDRSuite's proprietary Changed Block Tracking (CBT) are utilized to track and backup only the changes since the last backup.

Customizable Backup Scheduling

Set up automatic backups at intervals such as every 15 mins, hourly, daily, weekly, monthly, automating data protection.

Hyper-V Disaster Recovery

Create multiple backup copies and store on different storage targets & locations like remote/offsite data center or BDRCloud or Tape Drives

Advanced Backup Settings

BDRSuite enables to configure application-consistent backup, log truncation, automated backup verification, simplify backup job creation with predefined job templates & more.

Data Retention & Compliance

Manage data retention with options to keep backups for days, weeks, months, or years while adhering to compliance standards like HIPAA, GDPR, and SOC 2.

Backup Encryption & Compression

Built-in encryption and compression both during transfer and at rest. Custom password protection provides an extra layer of security, protecting data from unauthorized access.

Remote Backup

Enable backups of VMs from any network or geographic location, providing flexibility for distributed environments and remote operations.

What Makes BDRSuite

Stand Out from Other Backup Solutions

- Cost-Effectiveness – Significant savings compared to competitors
- 24/7 Responsive Technical Support
- Ease of Use and Management with minimal learning curve
- Quick Setup and deployment
- No edition complexities. One edition for all backup needs

Backup Simplified with Zero Hardware Investment

- BDRCloud-hosted Centralized Management Console
- Fully Managed in BDRCloud
- No Hardware Investment Required
- Cut Local Infrastructure Costs
- Quick and Simple Setup
- Automatic Upgrades & Maintenance
- Accessible From Anywhere, Anytime
- Scalable for Any Client Size
- Store backup on BDRCloud Storage or on your own Private/Public Cloud or On-premise storage (NAS, SAN)

Reports & Notification

Detailed reports (Job or VM Level) and instant email notifications keeps you updated on each task status (Backup, Recovery, Replication, Offsite Copy etc)

Highly Rated

Backup Solution by Customers,
MSPs, Channel Partners

“

We use BDRSuite for backup purposes and provide backup as a service to our customers. My company has been able to create a good income with a relatively small investment in BDRSuite. The flexible hybrid solution that BDRSuite provides along with reasonable pricing made us decide for this product instead of its competitors.
