Self-Service

Flexibility

Resource Optimization

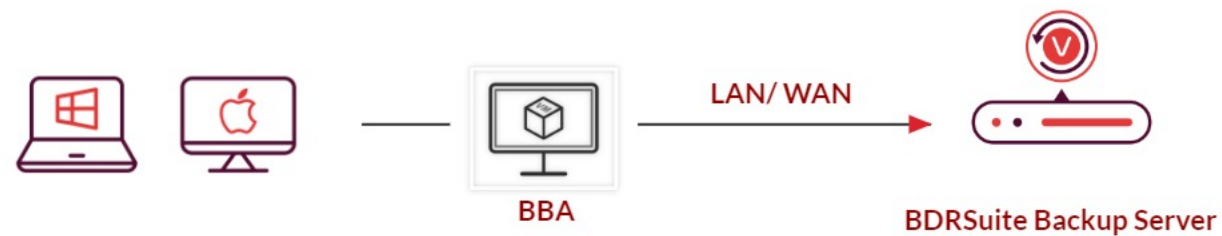

Administration

How BDRSuite Helps?

On-premise Deployment - Simple

- Ideal setup for businesses looking to manage backups for their premises either it may be a large one or a small environment.
- Setup BDRSuite Backup Server in your local environment and backup via LAN/WAN
- Using BDRSuite Backup Agent (BBA), backup your Windows, Linux, and Mac laptops and desktops to the storage repositories attached at the backup server end.
- Configure and manage backups for your endpoints from the BDRSuite Backup Server console directly.
